

Techwave established in 2004, is a global end-to-end IT services & solutions company, which develops long-term relationship with clients by leveraging unique delivery models and expert frameworks.

# 100% COMPLIANCE ACHIEVED

for Tech Startup through **SAP S/4 HANA Public Cloud Implementation**

## About Client

Our client is dedicated to the advancement of autonomous vehicle technology, with the primary goal of enhancing transportation safety for individuals. The client is a subsidiary of a global technology giant, exerting a substantial influence on numerous facets of contemporary living. The parent company is a multinational pioneer in internet-based products and services, known for its ubiquitous search engine. It has a market capitalization exceeding \$1 trillion, earning it a place in the top 10 on the Fortune 500 list.

The client has been actively engaged in self-driving car research since 2009 and has successfully conducted trials on public roads in multiple U.S. cities. Furthermore, the company envisions introducing a commercial ride-hailing service utilizing their autonomous vehicles.

## Executive Overview

In early 2022, Techwave initiated a collaboration with the client for an SAP S/4 HANA Public Cloud implementation project. While the client had already deployed S/4 HANA for its operations in the U.S., U.K., China, and Taiwan, they sought a partner with a deep understanding of local compliance and processes for their expansion into India.

Techwave demonstrated its in-depth knowledge of various Indian local tax and statutory requirements, including GST and T.D., setting the company apart for its SAP expertise and efficient configuration process. As a result, the client confidently selected Techwave as their dependable and accessible SAP partner for the Indian region. This partnership has led to streamlining all business processes and facilitated a smoother adoption for the client.

**Industry:**  
Technology

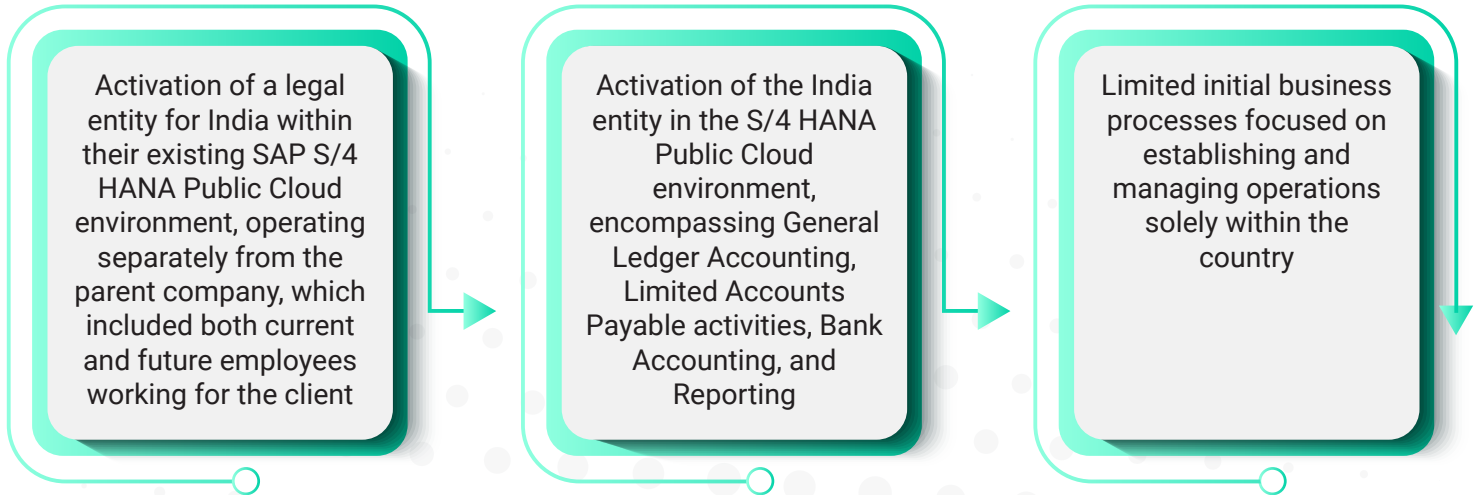

**Company Size:**  
Subsidiary of a Fortune  
Top 10 Company

**Region:**  
US-based with Global
