

Techwave

Techwave established in 2004, is a global end-to-end IT services & solutions company, which develops long-term relationship with clients by leveraging unique delivery models and expert frameworks.

German MNC Client Leverages Techwave's AMS and Testing Automation Services to Drive Increased Operational Efficiencies

About the Client:

The client is a service provider and partner of a German multinational company specializing in manufacturing and retailing personal-care products. The subsidiary company is a service provider and partner of the whole group and acts as an independent company. With a 300+ workforce, the subsidiary company (Techwave's client) provides Accounting and Information Technology (IT) Services for the parent company in over 70 countries. The company offers over 210 products and services and supports SAP R/3 Operations in 65+ countries worldwide.

Executive Summary

Techwave started working with the client in 2011 with a single resource at an onsite location on Projects (GPS), SD Module. Back then, as a part of it, we set up the offshore team as a strategic business expansion model. At present, it's a complete full stack (FICO, Material Management, Sales & Distribution, Supply Research Management, Workflows, ABAP, Bi-Suite, Power Bi) migrating S4 HANA, end-to-end service.

Client's Challenges

Client needed an experienced SAP technology partner to lead a critical role in customizing and enhancing business functions like FICO, MM, SD, ABAP,

SAP BI-Suite, PowerBI, and Supply Research Management. Here is the list of challenges that were affecting client's way of doing business: -

- Support implementation and heavy handling volume of global tickets
- Coordinating all enhancements and providing support to both onsite and offshore teams
- Automation projects to handle testing for all global rollouts
- Required extensive support to monitor and manage global tickets

Techwave's and Strategy and Solutions

To meet the client's requirements, Techwave is providing both onsite and offshore assistance. For the last 13 years, Techwave has connected constantly with the client's team to provide seamless support on daily activity from Offshore. Along with this, Techwave offers the following support:

Created a core user organization to ensure a single point of contact with the client for each module

Developed an action plan to meet the client's business plan

Quality configuration to address the unique pharma industry FDA compliance

Set up the offshore team as a strategic business expansion model in MM, SD, FI, SRM, ABAP, BI/BW and PowerBI for support functions (APS)

Involved in Bluecore rollouts in the areas of SRM, ABAP (PLM), and MM

Handled the CIN (Country India Version) rollout from Offshore along with full Project Management capabilities and successfully executed the Project with our absolute commitment

Executed the WM rollouts for Indian Warehouses/Plants with full project management capabilities

Business Impact

Techwave's SAP specialists provided constant onsite and offshore support to address global tickets promptly. Some of our key contributions are:

Successful rollout for Kazakhstan from offshore

100% SLA adherence consistently

Adopted GDPR compliance for the client

First-time-right on enhancements as dispatcher role

Why choose Techwave?

With decades of technological competence and a supreme edge over solutions that lead to digital transformation, we genuinely care about providing you with the finest SAP experience.
