

Techwave, established in 2004, is a global end-to-end IT services & solutions company, which develops long-term relationships with clients by leveraging unique delivery models and expert frameworks.

Global FMCG

SAP S/4HANA IMPLEMENTATION

The Client

The client manufactures and trades domestic household goods through a worldwide distribution chain. The client's brands include the antiseptic brand Dettol, the analgesic Disprin, the immune-support supplement Airborne, the Australian insecticide brand Mortein, the baby food brand Mead Johnson, and many other renowned brands.

The company operates in more than 100 countries and generated approximately 13.2 billion pounds in global revenue in 2021.

Executive Overview

Techwave started working with the client for SAP S/4 deployment and global rollout in 2017. The client's project landscape included on-site and off site support for their S/4HANA journey.

Broadly, the work scope covers SAP support for:

Developing deployment templates based on regional business requirements

Consolidating MJN into the client to complete the merger

Implementing S/4HANA into the client's system across the globe

Client's Challenges

The client needed a prompt and efficient SAP technology partner to lead a critical role in their S/4HANA implementation journey.

Here is the list of the client's challenges:

Unstandardized business processes across scattered business landscapes

Different implementation approaches and strategies

Reduce time to benefit

Allow flexible template adjustments based on business requirements across the globe

Minimize costs

Techwave's Strategy and Solutions

Working to understand the client's in-depth requirements, Techwave provided the following solutions:

Compliance with the global template and standard business processes

Allow transfer of leading practices across all lines of business

Drive quick, repeatable project implementations using existing templates

Develop deployment templates based on business requirements

Rollback of desired and required changes into the template

Re-use templates and related content in various rollout implementations to reduce cost

Cloud consolidation to complete MJN and client merger

Value addition in all sub-verticals of IT such as corporate, PMO, Enterprise technology, ERP, Quality & Internal systems

Provide consulting services and recommend Azure for their cloud transition

Appreciation received for completing IT-HANA Testing ahead of time & Received SAP HANA Innovation Award

Business Impacts

Techwave's SAP specialists developed enhancements to meet the client's needs and provide consistent support during their S/4HANA journey. We facilitated the following:

Why Choose Techwave?
